

Give me a brake!

Milton's selection for February's Business of the month is Marty's Auto! Marty's Auto is located at 327 Route 7 South and has been located in Milton for more than 30 years. Chad Wheeler, the General Manager of Marty's Auto, said that the business provides "low mile, rust free, reliable cars for a lot less than you would have to pay at a big dealership." When asked about what made him the most proud of Marty's Auto, Wheeler said that "We take pride in honesty and integrity and stand behind every vehicle we sell."

Marty's Auto always has something new going on. Wheeler said that day-to-day tasks consist of "trying to pick cars to purchase, finding the right prices on parts, [and] diagnosing anything from small body damage to electrical systems to computers." With so many different tasks to accomplish, the job may seem overwhelming. Wheeler said that "having 150+ cars in inventory certainly makes every day an adventure."

When they aren't busy looking at "5-6000 cars a week," Marty's Auto is working to give back to the people of Milton. Wheeler said that the business helps the local community "by providing jobs, making rust-free southern cars available to customers at fair and below market prices, and purchasing from local vendors." Marty's Auto currently has 13 full-time employees, of which five live in Milton. Wheeler said that one of the greatest parts of the company's success is due to the employees. "We feel that our employees are our extended family and they in turn treat the customers and retail cars as such."

Even after their 30+ years of service to the Milton community, Marty's Auto plans to stick around. When asked about where they see themselves in the next five years, Wheeler responded that it will be "business as usual here at Marty's Auto." The business plans to "continue to bring a quality product to the people of the surrounding area." Wheeler also made it clear to those who may be wondering that they "don't have specific plans to expand as that could dilute the quality of our inventory and service." As a closing note, Marty's Auto would like to thank all of those who have supported their business throughout the years.
